

PRIVATE ASSET SERVICES

Since its inception in 1996, EFA's range of services has expanded far beyond fund administration.

We promote innovation and continuously develop new products and services by closely tracking market and regulatory trends. We do this in open architecture for investment funds and other investment vehicles and through the provision of specialised institutional services.

Whether it is private equity, real estate, infrastructure, debt or any other type of private assets, you can rely upon our Private Asset Services team to support your business.

We understand what you need and when you need it, whether it's to raise capital, draw it down, complete a deal, pay distributions or prepare your periodic accounts.

Our independent and open architecture model enables us to ensure best-in-class services through our relationships with specialised lawyers, tax advisers, audit and consultancy firms. For your best interest we also set-up many partnerships with various stakeholders.

Quality is our top priority.

WHY CHOOSE EFA AS A PARTNER ?
